PP WOVEN BAG

LEADING MANUFACTURER IN CHINA

MR. YANZAO XIANG
President

“No pains, no gains”. We believe that to be an excellent enterprise must be with outstanding technology, high quality, systematic management and superior service. Since founded in 1998, Wenzhou Xifa has specially thought highly of technology updating and staff training, and continuously improved production technology and product quality. Let's hand in hand, create a win-win future.

COMPANY INTRODUCTION

RESPONSIBILITY CREATE QUALITY
QUALITY CREATE TOMORROW

Xifa Industry is located in Wenzhou China. Established in 1998, the company is a modern enterprise specialized in polypropylene woven bags. With an area of three hundred thousand square meters and 150 million US dollars fixed assets, our company has 450 circle weaving machines, 40 full automatic color printing production lines, 20 lamination production lines. The annual output reaches at 200 million bags and the annual turnover is more than eighty million US dollars. Our over-

seas offices and agents cover more than 60 countries and concentrated areas. We have made an excellent impression in the overseas market as well as maintained a long business co-operation with top agricultural companies like CHIA TAI GROUP in Thailand, Acron in Russia, ETG, BAGTECH in South Africa, Minerex in Bolivia, KAP in Tanzania and so on. Experienced 19 years of rapid development, Xifa now becomes the plastic packaging leading enterprise and China's largest color printing

bag manufacturer. The company mainly produces fertilizer bags, feed bags, rice and flour bags, salt bags, chemical woven bags, paper laminated bags, ton bags and so on. Warmly welcome to contact with us for future mutual benefit cooperation.

OFFICE

We do it as our principle with having a professional production team of over 420 workers, a 10 persons' responsible quality control team, a coop-

erative team of 26 employees and a careful after-sale service team of 22 girls and 10 administrators leadership under the President Mr. YanZao Xiang.

QUALITY FIRST, AND INTEGRITY SERVICES.

MODERN FACTORY

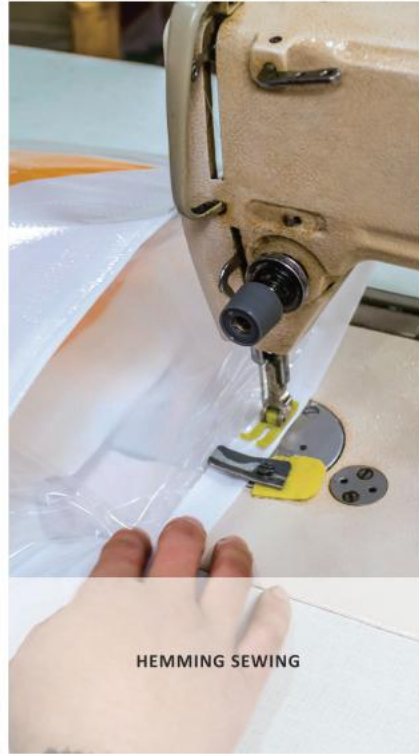

Combined advanced automatic equipment, mature packing technique with comprehensive quality management system (ISO), XIFA believes: first-grade quality makes a bright tomorrow.

OUR ADVANTAGES

1

Purchasing advantage: We practice group purchasing and sign long time mutual strategic cooperation agreement with our domestic well-known chemical enterprises such as Sino Chem, Maoming Chem, Qilu Chem and so on.

2

Technology advantage: Having specialized in manufacturing pp woven bag for 20 years, we own high top technical team. Settled with first level production processing line and equipment, we are on leading position on polishing, lamination, anti-counterfeiting gravure print, QR code tracing system and other advanced packing workmanship.

3

Capacity advantage: **Owning three subordinate production basis, 40 gravure printing machines, 10 offset print machines, 20 lamination lines, and 91 cutting and sewing production lines, our monthly capacity can reach 20 million pcs, which is the biggest capacity of pp woven packing bag industry.**

4

Quality advantage: We are the first to introduce the ERP management system which can greatly help us to supervise the quality in each production processing step. Our good quality can be assured all the time.

5

Service advantage: Satisfying more than 500 clients from both domestic and overseas who come from various industries. Big National enterprises, the listed companies. Large scale chemical leading enterprises, fodder group, grain and oil groups and so on, we have accumulated abundant service experience. We are your best choice!!!
